DETAILED ACTION

Allowable Subject Matter

1. Claims 8, 19, 25, 28, 31 and 34 are allowed.
2. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "a shunt circuit is formed by arranging a plurality of shunt transformers such that shunt coils of the plurality of shunt transformers are connected to form a multi-tier structure, shunt coils associated with at least one tier in the multi-tier structure being operably connected to the discharge lamps, and a reactance value of an upper shunt coil is sequentially reduced in comparison with that of a lower shunt coil, whereby a number of turns of shunt coils is progressively reduced" in a manner claimed in claims 8 and 19. It is for this reason in combination with all the other limitations in the independent claims 8 and 19, that claims 8, 19, 25, 28, 31 and 34 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
